| SegmentWeave: Post-Processing Framework for Enhanced Dense Video Captioning ( <b>Under Review 2026</b> )<br>Junhyuk Kwon (second author), et al.                                             |  |

## Work Experience

|                                                                         |                       |
|-------------------------------------------------------------------------|-----------------------|
| <b>KT Corp:</b> <i>AI Research Intern, A-Intelligent Reasoning Team</i> | Jul, 2026 - Aug, 2026 |
| <b>Growdle:</b> <i>AI Engineer Intern, AI Task Force</i>                | Jul, 2024 - Sep, 2024 |

## Research Experience

|                                                                                       |                |
|---------------------------------------------------------------------------------------|----------------|
| [Graduate Researcher] Machine Learning Laboratory, POSTECH                            | 2025 - Present |
| [Undergraduate Researcher] Knowledge-based Data Discovery Laboratory, Inha University | 2023 - 2025    |

## Honors and Awards

|                                                                                                              |      |
|--------------------------------------------------------------------------------------------------------------|------|
| Grand Prize, Inha AI Challenge<br><i>LLM-based Question Answering, 2nd Place</i>                             | 2024 |
| Undergraduate Paper Award, Korea Computer Congress                                                           | 2024 |
| Excellence Award, Hyundai Motor Group CTO AI Competition<br><i>Industry Problem-Solving Track, 2nd Place</i> | 2023 |

## Experiences

|                                                                |                       |
|----------------------------------------------------------------|-----------------------|
| [Education] NAVER Boostcamp AI Tech, Recommender Systems Track | Sep, 2022 - Feb, 2023 |
| [Military] Korean Augmentation to the U.S. Army (KATUSA)       | Jun, 2019 - Jan, 2021 |

## Technical Skills

Python, PyTorch, C/C++, SQL, Linux, Bash, Docker, Slurm, vLLM, llama.cpp, Git

Last Update 2026.09.28
